FAIR PLAY. A S much disease prevails in our midst for which men of science and deepest research have ever failed to give relief, nay more, have ever pronounced out of the power of medicine or skill; and as seen here, certified and referred to by our neighbors of undoubted veracity, cures are made in our city, and open to the inspection of all, in the different varieties of the worst disease, pleasantly and speedily made by the was of Hampton's Tincture and Ointment. Would it not be well, or, I would ask, is it not the duty of the honorable Mayor and City Council to investigate this matter? It it he false, it should be silenced by them; if it be found true, let it so to an afflicted world with merited honor, and that blaze of glory won by its cures new to all medicine, and beionging alone to itself. Does not suffering human nature cry aloud for relief? Where are the friends to the conforts of health? Where is the philanthropist? Can they stand it? Further: in the possession of these facts, should they not come forth, and with a voice of thunder proclaim to the afflicted with joy, in the pleasant bitter, in this healer of the stonrach, is found a sovereign balm, a radical cure for all disease? If this be true, it would a radical cure for all disease. seem to me worthy of all praise; if it be false, I poor wretch, the miserable monster, who would dare trifle with the matmed, the halt, and the his

In different families of old standards of the city and county, and known to all, and for whom every gentleman of their acquaintance would wouch for every statement they would make. The overwhelming success of the Tincture and Ointment in their families, together with a philanthropic desire for the relief of suffering human nature, have gratefully permitted us to refer to them. In these cases will be found intense suffering of long standing, and finally surrendered as past all hope. Believing the afflicted would be better satisfied to call and witness for themselves than with any statement i could make, I shall attempt but one, nor would I tha but for the fact of its unequalled suffering and compilicated character.

New York, December 20, 1851.

Measts. Strarbes & Marvin, successors to Rion & Co., No. 116 Water street, New York.—Sins:—When the fire was consuming my place of business, No. 216 Pearl street, I was absent in behinselaer county, testing a new cleaning appearants in connection with my Excelsion Thesher, and did not read the account until I was learful it was too late to save my books, which were placed in one of your Safes, purchased of Mr. Marvinesome year ago. My lears were not alwayed when I lound it necessary upon my lettin to capply the Crotic water 40 hours before I was enabled to commence operations; after which it required fifty four from a label and application of water to raise the Naturna of Iromitisany bed. You may judge of m anxiety during this delay, and my agreeable surplise upon opening the Safe in the presence of several gentlemen, to find my hooks and papers saved, and as legible as they were before the field.—The intense heat to which the Safe was subjected, on a Salamander, of which an iron skeleten frame entry remained, and hor a vestige of a book. They were companious in the same office, on the second floor, from which they fell upon crates of earthenware in the cellar, the tulined Safe upon the salamander. If their position had been reversed, not even the sketetor would have resulted me. My loss over the insurance is \$1,900, yet the salvation of my books in your Salamander, winther representatives of upwards of \$100,000, and important documents which could not be duplicated, has fully compensated me.

Yours, respectfully, JOSEPH G. GILBERT.
